01_pamela_punshon_open_modified_1	B	Lovely image, texture is great. I'm just not sure about the big tear, I'm finding it distracting.
02_pamela_punshon_open_modified_2	B	Another well crafted image. The position of the bubbles is not sitting well with me, I like the way they are following the line of the arm but they are not connected with the mouth at all.
03_pamela_punshon_open_modified_3	B	Loving the story here. Perhaps a bit of a vignette (or burning in) to help keep my eye on the main subject. Also consider shooting more from the right so that behind the gents head is just the curtain and not a combination of curtain and multi greenery.
