

ROCKINGHAM PHOTOGRAPHY CLUB

Novice

June 2020	Judge's Comments	Award (If any)
01_ian_riley_novice_1	<p>This image radiates a feeling of serenity, the church gives the image perspective, even though it appears small within this panorama. There is adequate environment shown that adds to the peace and tranquillity of the landscape.</p> <p>Improvements:</p> <ol style="list-style-type: none">1. Be mindful of blow outs as the sun blows out the image and my eyes are drawn to the brightest part of the panorama instead of the detail within the image.2. Also be mindful of stitching, as there is an obvious editing error in the middle of the panorama. <p>Overall, this is an effective image well done.</p>	
02_karen_steel_novice_1	<p>This image also displays a feeling of serenity, and the persons fishing on the jetty balance the image as it gives some perspective to the overall image. There is adequate environment shown to add to the peaceful nature of this landscape.</p> <p>Improvements:</p> <ol style="list-style-type: none">1. Be mindful of your colour tones, consider a monochrome edit.2. Consider cropping the lower half of the image, as the footprints distract one's eye. <p>Overall, this is an effective image well done.</p>	Bronze
03_karen_steel_novice_2	<p>There is an effective strong story line within this image, as it shows the effects of a bush fire and how such events can devastate the environment.</p> <p>There is added beauty with the golden foliage, which adds a sense of harmony as the colour tones are effective within this image.</p> <p>Improvements:</p> <ol style="list-style-type: none">1. The image needs a touch more sharpening and be mindful of your focus points as some of the trees are out of focus. <p>Successful visual communication has been achieved, well done.</p>	

04_karen_steel_novice_3	<p>This is nature at its best, the colours of the foliage and on the ground add to this harmonious environment and strengthens the overall storyline.</p> <p>The trees are sharp from front to rear and the colour tones are well balanced throughout the image.</p> <p>Improvements:</p> <ol style="list-style-type: none">1. The centre sky is blown out and can be corrected with the high-lights slider.2. There is a touch of haloing on the edges of the trees, this can also be reduced with the high-lights slider. <p>Well done – as successful visual communication has been achieved. Silver award.</p>	Silver
